

**BETTER SERVICE MEANS
BETTER BUSINESS**

Restaurants know that the busiest times of the day are also the most likely times to lose customers if there are long lines, congestion and any appearance of confusion. With the GuestCall™ Paging System from iPort Communications, you can give your customers perfect service the moment they walk in the door.

GuestCall™ was designed specifically to help restaurants manage incoming customers efficiently and distinctively. Customers receive instant notification when their table is ready, making them feel special and welcome. Freed from long lines, your restaurant looks more inviting to people walking in. Customers are encouraged to wait in the bar area without fears of missing their table, resulting in higher bar traffic, while overall restaurant traffic flows more smoothly, leading to faster table turns. By offering perfect customer service the instant a customer appears, you will enjoy greater competitiveness, revenues and profits.

At iPort Communications, we understand the value of great service.

**PRODUCTS DESIGNED TO INCREASE RETENTION, EFFICIENCY,
AND YOUR BOTTOM LINE**

PAGING SYSTEMS FOR SILENT COMMUNICATION

GuestCall Desktop Transmitter:

This transmitter is designed to provide versatility and ease-of-use for the staff. Users experience one-step features for easy paging, communication and alerts. With its durable design, GuestCall is able to withstand the toughest restaurant conditions.

Crystal Call Rechargeable Pager:

Ideal for restaurants looking for a new twist on the conventional coaster style pager. This stylish, rechargeable pager vibrates, flashes, beeps or any combination of the three when paged. The *Out-Of-Range* melody alert and *Auto Locate* features help reduce accidental loss. Long life rechargeable battery lasts 3-5 years. Promotion paddle is perfect for custom insert of restaurant name, logo and house specials.

Coaster Pager:

Our most popular pager on the market! Send alerts using flashing lights, vibrations or beeps to your guests. the Coaster Pager is simple-to-use, stackable, rechargeable and easily fits in the hostess stand. It also has an *Auto Locate* feature and an *Out-Of-Range* melody to reduce accidental theft.
